Watton Society - report for March Meeting

Watton Society enjoyed an evening out, visiting gardens in Norfolk, Suffolk, Lincolnshire, Northampton and Essex.
A vivid description was given by Simon White from Beales Roses. A total of 28 gardens, including one no-one had ever seen.
Each garden was described in detail, explaining the speciality of plants grown and why, with very clear pictures being shown, a delight for gardeners and non-gardeners alike. An extremely well presented evening. The one no-one had been to was his own. Beautiful. Our next meeting will be on Wednesday 16th May, at 7.45pm at the Watton Christian Community Centre, when the speaker will be Bryan Thurlow - "We'll meet again." an evacuee's story. Looking forward to seeing members and visitors then.
