

## **Watton Society - July Visit**

Watton Society visited a "Little Building with a Big Story" and what a story. Langham Dome's story began in 1918 with the birth of the air force through to being the closest British base to Berlin WWII. Langham Dome is only a small part of what was an important air base, covering the North Sea Coastal Defences. The presentation was very interesting, extremely funny at times, and very well done. A most worthwhile visit. Our next meeting is at 7.45pm on Wednesday 19th September, back at the Watton Christian Community Centre when the speaker will be Mark Reynolds "My life in Cartoons". Look forward to seeing you all then. Look at our website and posters for more information.
